

INSTRUCTIONS FOR PREPARING POSTERS

Dear Author,

Congratulations on getting your abstract accepted for poster presentation. In order to effectively communicate the results of your research or project work to the conference, you are kindly requested to follow these guidelines that have been developed to ensure that posters are similar in size and format.

Language : Your poster must be in English.

Dimensions : The dimensions of your poster must be of 841 mm width and 1189 mm height or 33.1 in. and 46.8 in. height (A0 size) and be in portrait.

On the poster :

- **The Session Theme Number and the Full Paper ID should be written clearly as shown in the figure below**
- the conference logo on the right corner as shown in the figure below. The logo is available where you found the poster template;
- The heading should have a font at least **20 mm high** listing the title of the paper. Authors, institution and its location must be written below the Title. If necessary, please shorten the heading. Fonts for text and captions should be at least **10 mm high**;
- It is recommended that the poster include a brief abstract, background and/or objectives, methods, results and conclusions. The **abstract** should contain a brief overview of the project as a whole.

It is also useful to have a one page sheet (letter format) handout with the same sort of information and in a similar layout to the poster. This provides a useful **'take-away'** resource and is very popular with conference audiences. Please make sure you provide your contact details on the handout, including your name and e-mail and/or telephone number.

* Session theme number
